

Dr. Lindsay J. Hounjet

Dr. Lindsay J. Hounjet earned a BSc Honours in Chemistry from the University of Saskatchewan in 2006 and a PhD in Inorganic Chemistry from the University of Alberta in 2011. He conducted postdoctoral research at the University of Toronto and at the University of Pennsylvania from 2011 to 2014. He has been employed as a Research Scientist with Natural Resources Canada at CanmetENERGY in Devon, Alberta since 2015, where he serves to improve the safety of crude oil transportation in Canada by investigating the aquatic behaviour of oil spills and response thereto with spill treating agents. His research aims to inform appropriate spill preparedness and response options by improving understanding of how oil's spatial distribution in an aquatic system tends to be influenced by physicochemical properties of oil, water, sediment, and spill treating agents."
